65 BULLS ON OFFER

KANDANGA VALLEY JESUIT

KANDANGA VALLEY YAHOO

KANDANGA VALLEY CHABLIS (P)

Welcome friends to our 6th Annual On Property 'Summer' sale to be held at our home property 'Warravale' in the Kandanga valley on Saturday December 6th, commencing 10am.

This summer we will have on offer for your competition 65 quality beefy boys ready to go straight to work. By no means are these boys inferior to our July bulls, in fact we believe this line-up is equal to any we have had the pleasure to present.

As I write this welcome, back in late October, although our spring has been a bit hot and dusty, we are currently receiving some nice storms and general rain across Queensland. We hope wherever you are, this continues on into the summer, and we all get a nice start to the season.

We have invested heavily in polled genetics in recent years, and the results of our careful selection are showing here with 39 of the bulls presented polled or poll/scurred. We think you'll agree upon inspection these boys still maintain that good soft muscling, plus bone and growth Kandanga Valley bulls are noted for.

The Australian cattle market, at present is red hot and this welcome rain should only bolster prices even further. The Charolais and Charbray bull selling season has also been very strong this year and there are obvious reasons for this. We are paid by weight and meat quality and Charolais and Charbray genetics consistently provide both.

It is no fluke that Charolais and Charbray cattle are always topping sales across the state. They perform exceptionally well in feedlots or crop fattening and there are always plenty of keen buyers around a pen of white or golden coloured cattle.

For bulls that aren't over prepared and are reared on ticky coastal country, that will perform in any environment, please consider Kandanga Valley bulls to improve your herd performance and breed good flat-back progeny.

All the bulls are now semen morphology tested within two weeks prior to sale to allow you to buy with confidence.

Roz & I, Nick & Grace and families look forward to catching up with you on Saturday December 6th.

All the best,

John Mercer

About Us & Stud History

Both the Kandanga Valley Charolais and Charbray studs were established in 1988. The first Charolais cattle at Kandanga were purchased by John's parents, Kev & Joan, in 1973 and there has been a Charolais infusion in the Kandanga Valley herd since those early days.

John and Roz purchased Warravale, Kandanga, from John's parents in 1986 and have since owned a Central Queensland property and properties in the Tansey and Gympie district plus agisted properties west of Gympie. Now having sold all of our Tansey grazing country we have secured a very nice property at Moonie on the western downs where most of our Charolais females now run.

We have raised four great children, Wade, Kate, Nick & Brooke and are now proud grandparents to an ever increasing group of fine, good looking offspring.

The first registered Charbray cattle were purchased in 1979 at the Nahrunda Stud dispersal at Gympie. The tremendous growth and easy doing ability of these first Charbrays, with the added benefit of tick resistance, convinced us that Charbray cattle were the most profitable in our environment and probably most other environments as well. Their saleability at fat or store markets is second to none in Queensland.

We now put a heavy emphasis on breeding generation bred (purebred) Charbrays for a much better consistency of progeny to hit the ground.

Early stud Charolais breeders were purchased from numerous high profile studs plus smaller herd dispersals back in the eighties. Since then we have bred heavy muscled, soft fleshed French type cattle with an eye on all the traits required to perform in Queensland conditions. Traits like fertility, milk, growth and muscling rank very highly in our selection criteria. Our herd is run very similar to any commercial herd with poor performers being culled quickly.

Having access to such a large number of stud females has allowed us to be very selective within our herd and we think the bulls offered during this time reflect this as do their very positive EBV figures.

We have recently purchased more country adjoining our Moonie property which has allowed us to retain more breeding females with our stud herds now over 1700 stud cattle.

About The Sale Bulls

CHAROLAIS

In this hand-picked line-up are 40 Charolais bulls including 26 polled (4 homozygous polled). In this group there are bulls that would suit stud duties or top end commercial enterprises but from top to bottom all these bulls display plenty of deep soft muscling and great structure to allow them to work on for years to come. If you are looking for plenty of weight for age, early muscling and ample bone in bulls that aren't overfed but ready for work, there's plenty on offer here.

Some Charolais sires represented in this sale include Palgrove Lombard (polled), Ascot Quorum (polled), Moongool Qadir (polled) and ANC Q Prince (polled). All polled sires that really put some punch and early muscling into their progeny.

Moongool Qadir (polled) has a big representation of predominately polled or homo-polled sons on offer. They are long-bodied, smooth muscled, sleek coated, nice correct types that really catch the eye.

Also well represented is Ascot Quorum (polled) once again with mostly polled or homo-polled sons on offer. These boys have really got some power and performance, and we think so much of them that we have selected a couple of sons from this year's weaning to be retained for in herd use.

CHARBRAY

In this line-up of 25 exceptionally good Charbray bulls (13 polled with 1 homo-polled), there are as usual bulls to suit all requirements and environmental conditions. There are some outstanding golden polled bulls to suit stud requirements right through to high Brahman content bulls to suit harsher conditions, but still give that bit of extra bone, muscling and weight to their progeny.

We feel this is definitely one of our best Charbray line-ups we've offered. If you look at the leg structure, good tidy underlines and masculine heads plus loads of red meat in these bulls, we think you'll agree upon inspection that this is one of our best offerings.

Influential Charbray sires represented in this draft include Trifecta Prince (poll/scur), Kandanga Valley Quilpie (polled), and have a look at this exceptional line-up by our Brahman bull Gracemere Great Northern (polled).

Bulls are vaccinated with 7-in 1 as calves, blooded at weaning, 3-day sickness and Vibrio as yearlings plus a 3-day booster and also MH+IBR prior to sale preparation.

All bulls are presented with muscle & fat scans, scrotal measurements, weights plus semen morphology results.

All bulls are mustered with horses, dogs, bikes and buggies.

**All bulls are
reared in the ticks
on coastal country.**

**All bulls are semen
morphology tested within
two weeks prior to sale.**

In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser, and the auctioneer, while he shall use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions.
 18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.
 - (b) If any vendor brings to the premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right in its absolute discretion, to exclude from the sale venue or dispose of any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.
 19. **DELIVERY.** Except at the discretion of the auctioneer, no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer, pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.
 20. In these Conditions:-
 - (a) References to "auctioneer" shall be taken to mean as the contest so admits, the Selling Agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot.
 - (b) "Purchaser" shall have the meaning ascribed to it in Condition 1.
 - (c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm.
 - (d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.
- IMPORTANT NOTICE** The Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy.
- All persons who attend the sale do so entirely at their risk and the Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.
