WELCOME

THE DUNLOP FAMILY WARMLY WELCOMES YOU TO THE DUNLOP SANTA SIRE SALE.

Our association with the Santa Gertrudis breed has been a long and rewarding journey. As early adopters of the breed more than 60 years ago, Scott's grandfather, Aubrey, and father, Lance, travelled as far as Townsville sourcing genetics in the breed's formative years. Descendants of some of those original genetics still roam the same paddocks today.

We're fairly certain that Aubrey and Lance — resolute and determined in their pursuit of Santa Gertrudis excellence — could never have imagined that their early efforts would grow into the enterprise we see today, where over 200 purebred Santa Gertrudis bulls are marketed annually.

Our operation has evolved to include over 1,500 purebred Santa Gertrudis females, with 1,000 classified stud cows, running across several properties in the Brisbane Valley, South Burnett & Dawson Valley.

Slogans about commercial relevance and industry focus are often thrown around. We believe we don't just say them — we live them. The majority of our income stems from our commercial sales, whether that's selling heavy feeder steers, cull Jap heifers, or prime cows. We're in constant communication with feedlots and abattoirs, receiving valuable feedback on our cattle's performance.

We breed our bulls on ticky forest country, or what we like to call true breeder country. This environment better reflects the conditions our clients work in — tough, real-world country where only the best genetics shine. While

we've responded to the growing demand for poll bulls, we remain committed to offering powerful, strong-boned, heavyweight horned bulls as well..

We invite you to inspect this year's bulls during our **Bull Walk on August 14th & 15th.**

We look forward to catching up with everyone on sale day at **"Jingeri" on September 5th, 2026.**

Warm regards,

Scott, Rebecca, Riley, Jack & Harry

SIREs

FIRST RELEASE SIRE

DUNLOP X-CALIBRE T586 (P)

SIRE BULLAMAKINKA Q104 (P)

DAM DUNLOP N409 (P)

X-Calibre has stood out since he hit the ground. A long-bodied, dark-coated bull with strong bone underneath him, he combines that length with a powerful muscle pattern and impressive growth to make him a genuine heavyweight sire.

His volume and overall size are matched by a quiet, easy-going disposition — a combination that has made him a real favourite in the program. X-Calibre brings the frame and structural strength to add real substance to a breeding herd, while passing on the growth figures buyers are looking for in their next generation.

A sound, imposing bull with the temperament to match — X-Calibre T586(P) is one to watch.

LOTS REPRESENTED 13, 15, 16, 27, 29, 39, 81, 84, 98, 134

FIRST RELEASE *First Release* SIRE

YARRAWONGA TRUMP T526 (P)

SIRE WATASANTA LADIES MAN 2110 (PS)

DAM MULTIPLE DAM

Trump was purchased for his dark coat and tremendous body capacity, with his exceptional depth of rib drawing particular attention. Coupled with a smooth, soft muscle pattern, these traits made him a highly desirable addition to the program.

Trump is a sire that adds volume, weight and softness without relying on extreme scale — delivering capacity and quality in a well-balanced package. A bull that proves bigger figures don't always mean bigger frames.

Trump T526(P) brings genuine substance and eye appeal to any breeding program.

LOTS REPRESENTED 1, 4, 20, 34, 41, 43, 58, 62, 76

FIRST RELEASE *First Release* SIRE

GREENUP TERRITORY T48 (P)

SIRE ROSEVALE NED KELLY N28 (P) DAM GREENUP Q59 (P)

Purchased as Lot 2 in the 2023 sale, Territory has proven himself a standout addition to the program. A docile, polled bull, he carries plenty of depth and thickness, with spring of rib and volume through the mid-piece that's clearly evident in both him and his progeny.

Not only does he display natural thickness, but above-average fat coverage as well. Put to the test in a multiple-sire joining, Territory settled more than his fair share of females — with 50 calves attributed to him through DNA testing, proof of both his fertility and his ability to compete.

Docile, deep-bodied and a proven performer in the paddock, Territory T48(P) backs up his figures with real, on-the-ground results.

LOTS REPRESENTED 8, 10, 18, 19, 22, 24, 35, 60, 61, 64, 86, 116

GREENUP

TABASCO T240 (P)

SIRE: GREENUP LANCELOT L86 (P)

DAM: GREENUP L237 (P)

Tabasco is another first-release sire, represented by 7 lots in this year's offering. He ranked in the top half-dozen of his sale cohort for 600-day growth EBV - figures we hoped he could translate into real beef on the ground. He's already backing that up, covering his fair share of females and siring 41 DNA-verified calves in his first season. A young sire with the growth credentials and proven fertility to match.

LOTS REPRESENTED 49, 54, 55, 68, 107, 124, 127

DUNLOP

X-FACTOR T240 (PP)

SIRE: GLENN OAKS MAGNATE M81 (P)

DAM: DUNLOP N189 (P)

X-Factor was retained as a standout in his 2023 sale cohort - a large-bodied, homozygous poll son of Magnate(P) with real presence and style about him. Exceptional balance, a dark tropical coat, and outstanding depth and volume are just a few of his redeeming features. Due to an injury sustained in a multiple-sire joining, X-Factor has a limited offering in this year's sale. Fortunately he recovered well, going on to achieve a 93% pregnancy test in his second joining to first-calf cows - a strong result that speaks to his soundness and fertility. A quality sire in short supply this year, X-Factor T240(PP) is one worth keeping an eye on.

LOTS REPRESENTED 66, 132

FIRST RELEASE Sires

BULLAMAKINKA TITUS T238 (P)

SIRE: MULTIPLE SIRE

DAM: BULLAMAKINKA K31 (P)

Titus was purchased as a young 17-month-old, and even at that early age his strong Indicus head and tropical skin type stood out - traits we're keen to maintain in our cattle. Due to his young age, he was only joined to a small group of females, but he's done well to have 5 of his sons make the cut for this year's sale team. A young sire already proving his worth, Titus T238(P) is one to keep an eye on as his progeny continue to come through.

LOTS REPRESENTED **36, 46, 65, 89, 113**

WACO TITAN T730 (PP)

SIRE: WACO PAXTON P164 (AI)(P)

DAM: WACO P403 (P)

Another first-season sire offering fresh blood, Titan comes with plenty to like. We'd been watching the progeny of his sire, Paxton(P), with interest, typically cattle of good breed character and disposition. It was this strong breed character and tropical attributes, coupled with a strong masculine head, high growth and sound reproductive qualities, that made him a wise investment. The fact that he's homozygous poll (PP) is an added feature, ensuring he'll breed poll progeny regardless of the cow's poll status. A fresh addition to the program with the pedigree and phenotype to match we believe his sons will only improve with age, Titan T730(PP) progeny are well worth a look.

LOTS REPRESENTED **63, 79, 88, 97, 105, 131**

KILCOCK SLIDER S62 (P)

SIRE: CANOWINDRA P5 (P)

DAM: BULLAMAKINKA L429

Slider(P) was purchased in 2023. We were attracted to his strong commercial attributes. A deep sided , high capacity bull that demonstrates softness and docility

LOTS REPRESENTED **70, 126, 137**

SALE SIRE

CARDONA

VANCOUVER V111 (P)

SIRE: Yulgilbar Navigator N214 (P)

DAM: Cardona Q16 (P)

Purchased in 2022 for \$120,000, Vancouver (P) has proven to be a truly exceptional sire. At just 20 months of age, he weighed 946kg, boasted an EMA of 147, fats 11/8, and gained at an impressive 1.46kg/day A.D.G. A dark-coated, heavy-boned sire with a strong tropical outlook, Vancouver's physical performance has only improved with age. Now too large to fit in the crush, he is estimated to exceed 1200kg, yet retains softness and shape rarely seen in a bull of this scale. His progeny speak for themselves-uniform in type, with dark coats, high growth rates, and outstanding performance across the board. His first sons sold in 2025, with 13 averaging \$20,615.

LOTS REPRESENTED 2, 3, 21, 23, 30, 31, 32, 45, 67, 83, 90, 142

SALE SIRE

DUNLOP

WAVERLY S206 (PS)

SIRE: Valley View Luke 1546 (P)

DAM: Dunlop M345

Waverly's overall performance, style, and carcass merit are something to behold. Quite possibly the best bull we have ever bred or purchased, he is a dark-coated, strong-headed sire with a powerful, muscular build and impressive hindquarter-all wrapped in a sleek tropical skin. Structurally correct and naturally fertile, Waverly (PS) had 15 sons in this sale from his first natural joining, along with 1 retained sire-a testament to his quality and libido. No artificial breeding has been used-just good, honest, natural performance. Despite a minor injury in his second season (limiting DNA-verified progeny to 31) he has still managed to accrue 12 sons in this years catalogue, he bounced back in his third joining, with 50 cows scanning PTIC. His dam, Dunlop M345, is nearing 11 years of age and is still active and PTIC, underlining the maternal strength in this pedigree. Another of her sons, Dunlop T574, sold to Bullamakinka/Narromine Studs for \$42,500 in 2023. We have also retained a son in Dunlop V12 (PS) as a future sire. The first 15 Waverly(PS) sold at auction in 2025 for an impressive average of \$22,333. They topped at \$40,000 to Uardy.

LOTS REPRESENTED 5, 9, 40, 42, 48, 74, 77, 78, 80, 115, 141

SALE SIRE

DUNLOP

ULBERT Q244 (AI)(PP)

SIRE: YARRAWONGA KIMBO K392 (P)

DAM: DUNLOP M267 (P)

Ulbert was retained as a sire because he simply possessed too many desirable traits to let go. A tremendous amount of thickness and overall muscling, combined with a slick skin and large frame, made it an easy decision to keep him. The fact that he's homozygous poll is simply an added bonus. Ulbert has since stamped his offspring with a considerable amount of carcass merit, backing up his own outstanding phenotype with results on the ground.

LOTS REPRESENTED 11, 85, 102, 118, 119, 120, 121, 135

SALE SIRE

VALLEY VIEW

LUKE 1546 (P)

SIRE: Hardigreen Park Phoenix G154 (P)

DAM: Valleyview 1359

Top priced bull at the 2017 Wandoan Sale, purchased for \$22,000. Luke is a very docile bull with an exceptional amount of carcass - notably, few bulls exhibit a butt profile as impressive as his. He carries a fine tropical skin and boasts a large scrotal circumference, both highly desirable traits. Luke has had 39 sons sold at auction averaging \$21,025, with a top price of \$67,500 to K&J Knudsen, and a second top of \$65,000 to Diamond H & Yarrawonga studs. Five sons have also been retained for stud duties, including standout sires Waverley(PS) and Winchester(P), and Zoonka V324(P) featured in the Future Sires section.

LOTS REPRESENTED 6, 7, 47, 110, 111, 125, 133

SALE SIRE

GLENVIEW

R132 (P)

SIRE: YARRAWONGA N672 (P)

DAM: GLENVIEW K245

Purchased from the Heartland sale at just 18 months old, R132 gave away considerable age to his contemporaries in the sale, yet his superior quality still shone through. Being out of a cow by the well-performed Dunlop Kaiser(PS) was an added bonus. A dark-coated, polled bull, he demonstrates a good amount of style and character. R132 has always been multiply joined, with his progeny determined through DNA testing, and has already left his mark with two sons - D.Yuri(PP) and D.Yolo(P) - retained as future sires in the program.

LOTS REPRESENTED 38, 72, 91, 108, 112, 136

SALE SIRE

DUNLOP

WINCHESTER S222 (P)

SIRE: Valley View Luke 1546 (P)

DAM: Dunlop Razzle M61 (P)

A standout poll sire whose length and power are undeniable. Tipping the scales at over 1000kg as a 2-year-old, Winchester (P) combines exceptional length, impressive thickness, and muscling, setting a new benchmark for performance in a polled package. Much like his sire, Valley View Luke(P), he's a curve-bender-offering outstanding carcass and muscling without sacrificing fertility, boasting a large scrotal measurement. His dam, Dunlop Razzle M61 (P), is an elite matron of the herd with 7 calves on record and PTIC again this year. Winchester's half-brother, Dunlop Yes Sir U798 (P), sold to Greenup/Eidsvold Station for \$36,000 in 2024, further confirming the strength of this maternal line. Although only a photo-based competition, Winchester (P) was named Santa Gertrudis Champion of the World in the global contest run by P.J. Budler-highlighting his breed strength and sire appeal on the world stage. Winchester's(P) first sons sold in 2025 with the 10 auction bulls averaging \$27,800, topping at \$65,000 for D.Zillmere V84 to the Santahat stud and a second top of \$60,000 for D.Zavross(P) V84 to the Pezet family.

LOTS REPRESENTED 17, 25, 56, 94, 114

SALE SIRE

GLENN OAKS

RUBBEL R36 (PS)

SIRE: Diamond H Renegade R47 (P)

DAM: Waco G743

Rubbel was purchased for \$120,000 in 2021 at the Santa Central sale. At 23 months of age, he weighed 973kg with a 142cm EMA, 14/11 fat, and a 40cm scrotal measurement. We recognized him as a standout poll bull with exceptional carcass merit. He is a medium-framed sire boasting tremendous thickness and width of frame, combined with a faultless temperament. His daughters are proving to be quiet, easy-doing, wide-bodied, and fertile - traits highly valued in the herd. Rubbel is a hard-working sire, with 37 DNA verified weaners in 2025 and a similar number in 2026. 20 sale bulls have averaged \$12,500 with a large amount of paddock bulls sold privately.

LOTS REPRESENTED 37, 69, 100, 104, 123

SALE SIRE

DUNLOP

WHOPPING S528 (PP)

SIRE: GLENN OAKS MAGNATE M81 (P)

DAM: DUNLOP M157 (P)

As his name suggests, Whopping(PP) is a bull of immense scale. He was retained not only for his high growth, but to carry on the Magnate(P) line. Whopping(PP) possesses a desirable fine skin type as well as good breed character, and is clean through the underline with large testicles - a strong indicator of his soundness and fertility. A bull that combines scale, growth and breeding relevance, Whopping(PP) S528(PP) is a valuable link in continuing the Magnate(P) line.

LOTS REPRESENTED 28, 50, 99, 140

SALE SIRE

DUNLOP

VULCAN R334 (PP)

SIRE: HARDIGREEN PARK URANUS M48 (PS) DAM: DUNLOP N259 (P)

Vulcan is a lighter-coloured sire that stands on heavy bone, with a terrific amount of carcase packed into this powerful bull. He carries a strong, broad head, is clean through the underline, and boasts a large set of testicles. A power-packed sire with substance to match his structure, Vulcan R334(PP) brings genuine carcase and capacity to the program.

LOTS REPRESENTED 52, 101, 122, 139

SALE SIRE

BURRAMURRA

340 (P)

SIRE: Restdown 141 (P)

DAM: Kuloomba 260 (P)

Burramurra 340 (P) was purchased as a 35-month-old for the second top price at the Western Downs Sale. He is a deep-sided, heavy-set sire who tipped the scales at an impressive 1240kg, with a 140cm EMA and a 46cm scrotal-a powerful combination of frame, fertility and carcass. He stands out for his broad head, tropical sirey outlook, and exceptional width of frame, and he continues to deliver value through his progeny. His previous sons have averaged \$17,555, with a top of \$24,000.

LOTS REPRESENTED 106, 109, 128

SALE SIRE

BULLAMAKINKA Q104 (P)

SIRE: ROSEHILL JAMESON 4 (ET)(AI)(PS)

DAM: BULLAMAKINKA K119

This dark-coated sire is a bull of considerable length, standing on heavy bone and carrying a particularly wide frame. One of his greatest attributes would have to be his extremely placid nature. His most significant achievement, however, is being the father of Dunlop X-Calibre(P), a first-release sire in this year's catalogue - a testament to the quality he's capable of producing. A proven and easy-going sire, Q104(P) continues to influence the program through his standout progeny.

LOTS REPRESENTED 87, 95, 103, 138

SALE SIRE

YARRAWONGA P440 (P)

SIRE: YARRAWONGA FIXER L664 (P)

DAM: YARRAWONGA L957

Another sire out of our multiple-sire battery, P440 is a son of Y.Fixer(P) and a solid performer in his own right. He tends to throw progeny with decent bone and strong fleshing, consistently adding substance to his calves. A dependable contributor to the program, P440(P) continues to back up his pedigree with results on the ground.

LOTS REPRESENTED 26, 51, 57, 92, 129

The BULLS

At the time of writing, cattle prices are surging. Cows are making over \$4/kg and bullocks in the mid to high \$4 range — returning up to \$3,000 per head and beyond. Heavy feeder steers are also fetching well beyond \$5/kg, with Santa Gertrudis types keenly sought after. Our last consignment of feeders returned \$2,600 a head — not a bad result, considering these were last year's weaners and don't reflect the standard of the lead 250 males that retained their breeding rights and are offered for sale this Spring. While supply shortages in southern states are partly responsible, global demand — particularly from the United States and the rest of the world — is driving prices higher. All signs point to increased profitability for Australian beef producers.

This year, we offer 142 rising two-year-old bulls from 28 sire lines. While we do single-sire mate several mobs of cows, our multiple-sire herd remains a key strength, and the genetic diversity it delivers is one of our greatest assets. You'll find a broader spread of genetics within our pedigree than in most other operations — meaning buyers can continually return, confident there's always a wide, diverse gene pool to select from. Diverse as these genetics are, every sire line has been selected against the same core values, the ones that underpin our commercial sales.

Due to the size and topography of our paddocks and the distribution of surface water, multiple-sire joining in larger mobs is the more practical system for us in many cases. It also allows for a natural selection process, where the most active and dominant bulls produce the most progeny — some of those sires purchased for over

BEEF PRICES UP – INTEREST RATES DOWN – WEATHER FORECAST POSITIVE

\$50,000. DNA testing plays a critical role in the program, ensuring 100% pedigree accuracy, identifying superior sire and dam lines, and removing underperformers from the breeding pool. In backing up the talk of fresh blood and genetic diversity, there are 8 new sires represented in the catalogue for the first time this year.

This cohort of bulls has had a variable run since weaning. They caught the tail end of an oats crop before moving onto grass, and a dry summer followed with sparse rainfall. A forage sorghum/lab-lab crop was planted, but given the patchy rain it wasn't enough to carry the whole cohort — so 80-90 head went onto the crop in late January, while the rest toughed it out on grass. An unusually heavy fall of 300mm in early March turned things around: it sired up the summer crop, allowed oats to be planted, and set up an excellent autumn. The remaining bulls moved onto the forage sorghum/lab-lab at the start of April, grazed it through, then transitioned onto oats in June — a good crop that will carry the sale bulls through to sale day.

All sale bulls have had the same preparation over the final four months, but we still believe it's important to assess them within their own management group. The second group, which had less nutritional opportunity over summer, contains some exceptional individuals — many are in this group simply because of their younger age. With that in mind, we've catalogued all of Group 2 in the second half of the sale.

The final preparation is no accident. We believe bulls need to know how to forage and thrive on plant-based diets. Coming off paddock and forage-based nutrition allows for a smoother transition into their new homes and ensures they're ready to perform from day one.

We look forward to sharing our passion, cattle, and conversation with you.

See you at the Bull Walk and on Sale Day!

AJAX (PP) presents as a dark coated, deep sided individual with genuine body capacity, closely mirroring the phenotype of his sire, first release sire Trump (P). His softness of coat and volume of muscle are traits that translate directly into commercial value, adding kilos without sacrificing structural correctness. As a homozygous poll sire, he removes any doubt around poll outcomes, guaranteeing hornless progeny in every mating regardless of the cow's own poll status. He is the first calf out of a heifer sired by the high performing V.V. Luke (P), underpinning him with proven maternal genetics from the outset.

DUNLOP R427 (PS)

MULTIPLE DAM

ABERDEEN W270 is a Vancouver (P) son carrying the dark coat we've come to associate with the sire line. Breed character is evident through the head, with width and strength carried consistently rearward through the whole topline and body. His fleshing ability and even coverage speak directly to his commercial relevance, indicating a bull capable of siring calves that finish efficiently on grass. A structurally sound, well-balanced young sire offering genuine breed type combined with the doing ability that commercial producers demand from their bull battery.

MULTIPLE DAM

ARGYLE (P) is exactly what you'd expect from this genetic mix - a young sire boasting high priced, elite genetics on both sides of his pedigree. Poll bulls carrying this much shape, power and muscle expression are genuinely hard to find in the breed today. Producers chasing added carcase weight and structural strength in their progeny will find plenty to like here. His dam, S463, has proven herself a consistent, reliable breeder, rearing 3 calves in the past 3 years and currently PTIC again, due to calve this summer - a strong indicator of longevity and fertility in the female line.

Homozygous poll genetics are visibly improving in this breed, and AXTON (PP) stands as clear evidence of that progress. A dark coated sire, he combines refinement and skin quality through the front end with real power and muscle expression through the hindquarter - a genuine two-ended bull. Offered as a heifer's first calf, he's an early indicator of strong genetic merit from a young female. His dam, T77 (P), continues to perform well in the program and is currently PTIC, due to calve again this spring. Dunlop Santos retains a 1/8 semen share

DUNLOP I617

MULTIPLE DAM

AGAMEMNON (P) is the youngest bull offered in this catalogue so far, a paternal brother to the previous lot and made in a very similar mould - fine skin type, a powerful muscle pattern, strong head and that desirable hooded eye. His dam, I617, has been a standout breeder, producing 8 DNA verified progeny: 5 retained heifers, 1 steer, S642 (sold for \$22,000), and Agamemnon (P) himself, her last calf before being preg tested empty and sold at just over 14 years of age. As only bulls and retained females were historically DNA tested, she also produced several other progeny not formally verified.

ARCADIA is a bull packed full of red meat, exhibiting the growth we've quickly come to expect from the X-CALIBRE (P) progeny. Not only is he long and deep, he's thick throughout, with power and width through the topline and hindquarters speaking directly to his strong commercial relevance. Reproductively sound and standing on solid bone, he backs up his physical presentation well. His dam, Q777 (P), has 4 recorded progeny, all male: one son sold for \$16,000, a steer, Arcadia himself, and X326, a promising weaner bull. She is currently PTIC to calve again later this year.

AMOS is the combination of two strong bloodlines, a dark coated bull with real presence. His depth of rib and overall capacity through the middle add to his terrific volume, while the combination of this depth of rib, flank and hindquarter with a smooth, soft muscle pattern makes him a sire well worth further inspection. His dam, R207 (P), has produced 2 heifers, Amos, and is currently PTIC to calve again later this year.

If you're into breeding heavyweight bullocks or heavy feeder steers, ARNHEM should be of interest - plenty of volume and power in this meat machine. A strong body, long tail, solid bone and muscle combined with good coverage make him a bull sure to put weight into his calves. He is the second bull calf produced by Q587, who recently weaned a heifer calf and is currently PTIC.

AVON is a particularly docile sire, presenting the natural fleshing ability we've come to expect from the Waverly (PS) progeny. He carries a smooth, soft muscle pattern throughout, with a temperament that adds real handling value to a commercial operation. Both sides of his pedigree contribute a little extra fat cover, an inherited trait that speaks to early maturity and marbling potential - attributes prized by producers targeting premium grass or grain finished markets alike. A well-balanced, easy-doing prospect suited to breeders after quiet, manageable progeny.

ARGUS (P) is a dark coated poll bull displaying good head carriage and neck extension. As is often the case with bulls that are long and clean through the front end, that length carries through the rest of the body, and Argus (P) is no exception. He also presents a good sheath and stands on strong, correct bone - attributes that add both structural soundness and reproductive confidence to his overall package. He is the first calf out of T489 (P), who recently weaned a heifer calf and is currently PTIC to deliver her third calf in 3 years, a strong indicator of consistent fertility in the female line.

DUNLOP N653

MULTIPLE DAM

ARIES (P) is a bull possessing so many attractive, saleable qualities. A strong, sirey head and generous looseness of dewlap lead into a deep mid piece, bound by a strong, level topline and terrific heart girth and spring of rib. He carries a softness of flank and the trademark butt profile - that rounded, well-let-down hindquarter - that Luke (P) is so well known for stamping on his progeny, all wrapped in a supple, loose, tropically-adapted skin type that speaks to easy adaptability in a commercial setting. What is even more impressive than Aries (P) himself is the production record standing behind him. His dam, N365, has delivered 8 calves in 8 consecutive years and is currently PTIC to calve again later this year - a rare display of longevity, structural soundness and reproductive efficiency in a breeding female. Her first calf was not DNA verified, 2 daughters remain active as productive breeders within the herd, and 3 sons have sold through the ring for \$19,000, \$18,000 and \$20,000, evidence of the consistent genetic merit and market demand this cow line commands. Aries (P) sells this year, a heifer was recently weaned, and N365 is currently PTIC once again - a truly outstanding record of fertility, production and longevity.

ARTURO (P) possesses a strong, solid body, displaying the combination of muscle expression and mid-piece capacity we've come to expect from the Territory (P) progeny. He's rounded out by a strong, masculine head, generous looseness of dewlap and a dark coat, all contributing to a bull of genuine commercial relevance - one capable of adding both weight and doing ability to a commercial breeding program. He is the first calf out of T361 (P), who has since weaned a heifer calf and is currently PTIC to calve again, further evidence of sound fertility and consistency in the female line.

ATLAS (P) combines the desirable trifecta of style, muscle expression and fat coverage, all carried on the solid, correct bone structure we like to see underpinning a genuine sire prospect. A study of his pedigree quickly explains why he presents the way he does, with proven genetics stacked on both sides contributing to his overall phenotype. He is the first calf out of T307 (P), who recently weaned a heifer calf and is currently PTIC again, a strong early sign of consistency and fertility in the female line.

ALCAZAR (PS) exhibits the unmistakable Premier (P) characteristics, showing those extra tropical traits and leaning a little more toward the Indicus side of his pedigree. Looseness of dewlap and flank, paired with a soft, supple tropical skin type, mark him out as a bull well suited to producers chasing added heat and parasite tolerance in a commercial setting. He is the third calf out of Q285 (P), before she was subsequently PTE and sold.

Remember that we're now into the second management group of bulls, ones that have had a shorter preparation period - which only further highlights the natural growth ability running through the X-Calibre (P) progeny. At just 21 months of age, ABRAHAM (P) is showing a tremendous amount of growth for his age. Not only is he upstanding and proud in his carriage, he exhibits great length, depth of flank, strong bone and a clean, tropically-adapted skin type. He is the first calf out of T365 (P), who is currently PTIC to calve again later in the year.

ARAMIS (PS), while still quite young, is already showing a great deal of potential. A dark coated bull, he's demonstrating high growth for his age, backed up by genuine reproductive soundness - a clean sheath and large testicles, along with an impressive 84% morphology result. We believe this is a bull that will continue to improve with age, developing further scale and maturity as he matures into full sire duty. His dam, N687, is an older cow whose early progeny were not DNA verified, though records confirm she has produced 5 DNA verified progeny in 5 years, including 1 heifer, 3 sale bulls that sold for \$26,000, \$9,000 and \$20,000, and Aramis (PS) himself - a sustained record of production and market performance across her verified drop.

MULTIPLE DAM

ARISTOTLE (P) is the result of two gene pools that complement one another exceptionally well. The capacity and carcase merit that Ulbert (PP) so reliably produces is quite evident in this bull, as is the darker, sleek Indicus skin type carried through from Titus (P). There's a lot to like about this reproductively sound, well balanced sire prospect - one that brings together growth, carcase quality and tropical adaptability in the one package. He is a heifer's first calf, her second being X692.

Only a baby, AZTEC (P) is a very interesting young calf with plenty to like already. He brings together a blend of style and genuine carcase merit through the dam's side, combined with the undeniable growth potential carried on his sire's side. Dark coated, upstanding and sleek, there's a lot to admire in this stylish individual - and to top it off, he's exceptionally quiet, a temperament trait that adds real handling value for stud and commercial buyers alike. His dam, S357, remains active in the herd and is currently PTIC to calve again later this year.

ABDUL (P) would have to be one of the quietest bulls going around - a genuine standout for handling and temperament. A thickset sire, he carries the trademark Winchester (P) carcass, backed by strong, correct bone and an impressively large scrotal circumference, both key indicators of structural soundness and reproductive capacity. His dam, S623, has since produced another heifer by Winchester (P) and is currently PTIC, further reinforcing the consistency of this proven cross.

ALTON (P) is a long bodied poll bull showing not only length and strength of spine, but width through the body as well. A powerfully built youngster, he carries a fine, supple tropical skin type that adds further commercial appeal. His dam, R127 (PS), is another extremely productive female, weaning 4 calves in 4 breeding years on a tight 361-day calving interval - a strong indicator of fertility and efficiency. She is currently PTIC with her 5th consecutive calf, continuing an outstanding production record.

ALCARAZ (P) is one of the youngest bulls in the sale, and honestly, a bull that wouldn't have been dealt such a harsh preparation had we understood his pedigree and the performance of his siblings sooner. A deep sided youngster carrying a beautiful, supple skin type, he's a bull that will continue to develop and realise his superior genetic potential as he matures with age. The carcase merit and fertility genetics stacked behind this sire prospect are immense. His dam, M1003 (P), is turning 11 years of age and has calved in every breeding year of her life. Her last 4 calves have all been bulls: U460, sold to Mira Cattle Co for \$18,000; V342, sold to Burleigh Estates in 2025 for \$50,000; Alcaraz (P), offered this year; and X600, recently weaned. M1003 (P) has maintained a tight 368-day calving interval over the past 8 years - an outstanding record of longevity, fertility and consistent genetic production. **Dunlop Santos retains a 1/8 semen share**

Another gem planted late in the catalogue - once again, a very young bull carrying a huge amount of genetic potential. We retained his full brother, Dunlop Zoonka (P), last year, a bull that weighed in at over 1000kg as a 2 year old. Like Zoonka (P), ALPHEUS (P) is displaying extreme length, a strong muscle pattern and an exceptional skin type. Reproductively he's excellent too, boasting an impressive 90% morphology result. His dam, P299, has had 4 calves, all bulls, with a promising weaner bull in X608 recently weaned, and she is currently PTIC.

AURELIO (P) is a high quality youngster, placed late in the catalogue but by no means a lesser prospect. A dark coated sire with a strong but kind head, he presents as smooth and well balanced through the body, with genuine quality still clearly evident despite his young age. He is the first calf out of T687, who has since weaned a heifer and is currently PTIC to calve again later this year.

ALBERTO (P) is another December calf, presenting good neck extension and head carriage, a broad, kind head and large ears. A young bull already starting to display the shape, style and smooth makeup typical of the Slider (P) progeny. His dam, Q237 (P), is another fertile, high performing cow, having produced 5 calves in 5 breeding seasons and currently PTIC - continuing a strong record of consistent, reliable production.

ALASKA (PS), while still young, already demonstrates real strength and masculinity. A strong head with a nice hooded eye fronts a long, muscular body wrapped in a fine tropical skin type. A young bull carrying plenty of natural power, he shows every sign of developing into an impressive sire. His dam, L461, is rising 12 years of age, remains active in the herd and is currently PTIC - with Alaska (PS) set to be her third sale bull, a strong testament to her longevity and consistent production.

Take a look at this gentle giant. A broad, strong head fronts a body cut from the same mould - long and powerful, demonstrating plenty of capacity through both width and depth. While heavy and powerful, he still carries a desirable softness of type, all standing on genuinely heavy bone. If you're into breeding big, soft, strong boned heavyweight bullocks, W58 is worth a couple of ticks on your catalogue.

As they say, "last but not least"! A pedigree designed to produce strength, power and softness - and that's exactly what it's delivered. A broad, strong, masculine head carries a positive homozygous poll test result, backed up by heavy bone and an impressively large scrotal circumference, rounding out a genuinely strong finish to the catalogue. W268 (PP) is a fitting way to close out the offering.

Skills-Based Training for the Modern **Breeding Industry**

Orion Training delivers hands-on livestock breeding courses on real, working properties - with live animals, established yards and experienced technicians, for beef and dairy cattle. It's the only place these skills can be properly learned.

● COURSES WE DELIVER

Semen Collection & Morphology

Correct semen collection technique in bulls, paired with laboratory morphology assessment, benchmarked to industry standard.

Artificial Insemination

Technique built through repetition, not just theory across Beef or Dairy cattle.

Nationally recognised under AHCA/IS304 Artificially Inseminate Livestock

Pregnancy Testing

Accurate, efficient diagnostic skills built through real repetition under real conditions, with real cattle.

Nationally recognised under AHCLSK339 Pregnancy Test Livestock

Orion Training holds Animal Ethics approvals in QLD, NSW, VIC, SA and beyond, giving host farms confidence that training is delivered in accordance with approved standards.

Join Our Host Farm Network

Host Farm Incentive Program

We pay you to host a course!

Host a livestock breeding course at your property. If you have suitable facilities and cattle, Orion will provide the trainers, equipment, and materials. If we place students into your course, you can earn an incentive while supporting industry training and developing your own team.

Train around your own schedule
Practice on your own herd
Immediate, real-world confidence
Better value – train the whole team

AUCTION TERMS & CONDITIONS

QUEENSLAND LIVESTOCK AGENTS ASSN LTD

STANDARD STUD STOCK AUCTION TERMS AND CONDITIONS OF SALE

IMPORTANT NOTICE All bids shall be treated as offers made upon the following terms and Conditions of Sale and all persons present are admitted to attend the sale on the basis that they have notice of these terms and Conditions.

1. The highest bidder shall, subject to Condition 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneers absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.

2. The sale will be conducted on a "Sale" or "no Sale" basis whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bid by the vendor who will immediately after the fall of the hammer declare "Sale" or "no Sale". Should the vendor reject the bid of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the Terms and Conditions herein set forth in so far as they shall apply. (a) All Sales will be conducted on the basis that the bid price will be exclusive of Goods & Services tax (GST). GST will be added to the bid price after the fall of the hammer for those sales subject to GST.

3. The details of the purchaser, the purchase price and the lot sold as recorded by the sale clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.

4. The auctioneer expressly reserves the right, without giving any reason therefore, to:- (a) Refuse to acknowledge any bid; (b) Withdraw any lot or lots before or during the sale; (c) Exclude any person from the auction venue should it think fit.

5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.

6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these Conditions as to pedigree, sex, age, breeding condition or otherwise howsoever, and no guarantee, warranty or condition whatsoever shall be implied from any affirmation made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee warranty or condition whatsoever was given or implied.

7. In the event of any dispute in respect to the sale of any lot:- (i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these terms and conditions. (ii) The vendor and the purchaser shall resolve the dispute between themselves; (iii) The auctioneer shall have no

liability or responsibility in regard to the dispute; and (iv) no lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.

8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.

9. (a) PAYMENT – Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidder's offer by the vendor and prior to delivery. notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and all cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated, and until property shall pass, the purchaser shall hold such lot as bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:- (i) Rescind the contract on behalf of the vendor and repossess and resell any lot; (ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the 90 day Bill Rate plus two percentum. For the purposes of this condition "the 90 day Bill Rate" is the rate published regularly in the Australian Financial Review, expressed as a percentage per annum. If at any time the Financial Review ceases to publish a 90 day Bill Rate, the auctioneer shall determine and advise the purchaser of the interest rate to apply for the purpose of this condition. (b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.

10. If the purchaser shall neglect or fail to comply with any of the within conditions, any lot purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former purchaser, who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.

11. Any vendor or purchaser removing the sale number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damage should the lot be wrongly delivered.

12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions, and shall jointly and severally carry out and perform same.

13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price

so agreed upon, regardless of the fact that that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however, that this Condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.

14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.

15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.

16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trade Practices Act or any applicable State legislation which cannot be contractually excluded and excepting conditions and warranties expressly contained in these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby excluded. The auctioneer is not liable in respect of any error, misdescription or omission in any particulars appearing or stated regarding the descriptions or pedigrees of any lot offered for sale and no such error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.

(b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot, such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to or remain with the vendor.

GUARANTEES OF FERTILITY:-

17.1 **BULLS.** Save and except for calves at foot, all bulls are guaranteed breeders and to so prove within six months of the date of sale or by reaching the age of 30 months whichever date shall be the later.

17.2 **FEMALES.** Save and except for female calves at foot, all females are guaranteed to be in calf or go into calf within six months of the date of sale or by the age of 30 months whichever date shall be the later. A positive pregnancy test certified by a qualified veterinary surgeon shall be sufficient evidence that the animal is in calf.

17.3 Claims under Clauses 17.1 and 17.2 guarantees of fertility shall be made to the vendor within six months from the date of sale or prior to the animal entering a quarantine area other than on the vendor's property.

17.3.1 All claims must be accompanied by a veterinary certificate which shall clearly identify the basis of the claim.

17.3.2 Infertility resulting from injury or disease occurring after the sale of the animal shall not be covered by this guarantee.

17.3.3 The vendor retains the right to have the animal placed on a property nominated by him or returned to his own property for further assessment of fertility for a period not exceeding six months. In the event of the animal being proven fertile within the period, the costs incurred shall be borne by the purchaser. In the event of the animal not being proven fertile within the period the costs incurred shall be borne by the vendor.

17.4 **LIABILITY OF A VENDOR.** Except for costs defined elsewhere in the conditions of sale, the liability of a vendor in respect of claims relating to fertility shall not exceed the purchase price of the animal(s)

or to provide mutually agreed upon replacement animals.

17.5 **REFUNDS.** In the event of a claim being substantiated and the purchase price being refunded, the animal/s shall automatically become the property of the vendor and be returned to him or disposed of according to his instructions at his expense.

17.6 This guarantee shall be voided by the purchaser if - (a) The animal is returned to the vendor - (i) in poor physical condition or with any injury; (ii) tests carried out on behalf of the vendor within fourteen days of such return proved positive to any diseases which may affect the animals fertility or ability to breed naturally; or (b) the purchaser has collected and stored semen from a bull or embryos from a female.

17.7 In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser and the auctioneer, while he will use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other monies or interest payable by the purchaser in accordance with these Terms and Conditions.

18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.

(b) If any vendor brings to the sale premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses, or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right, at its absolute discretion, to exclude from the sale, or put out of the sale venue or dispose of, any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.

19. **DELIVERY** - Except at the discretion of the auctioneer no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.

20. In these Conditions:-

(a) References to "Auctioneer" shall be taken to mean as the context so admits, the selling agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot;

(b) "Purchaser" shall have the meaning ascribed to it in Condition 1;

(c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm;

(d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.
