80 BULLS ON OFFER

KANDANGA VALLEY JESUIT

KANDANGA VALLEY YAHOO

KANDANGA VALLEY CHABLIS (P)

Welcome one and all to our 7th on property 'Summer' bull sale, once again held here at 'Warravale', in the beautiful Mary Valley.

In early August Roz & I, and our family, had the honour of hosting the Charolais and Charbray World Congress and from the feedback we've received we're sure they had a great afternoon. We had some sires and cows on display, and all enjoyed an open topped trailer ride around our irrigated pastures with about 80 weaner bulls to look at plus the added attraction of a slim chance of seeing a platypus in our creek.

We finished up with a very nice camp oven dinner and even 'Elvis' turned up to belt out a few tunes. A local ginger beer brewer donated some drinks for the day, and they were really well received. A big thank you to Diablo brewing, plus some of the meal costs were sponsored by 'Nbryo', an innovative fertility company.

This year we have increased our numbers to 80 head for your competition. I know our walking sires are in rough condition at the moment and I think with the dry spell most of us have suffered through, maybe this is a good opportunity to pick up some fresh young bulls at a reasonable price to keep your herds calving rate where it should be.

These tough young Kandanga Valley boys are ready to go. They're not big overfat bulls; we present them ready for work.

As I write this back in October, our western country is going through a relentless drought and Nick and Grace have been very busy drought feeding. All I can say is that over forty years of selecting for constitution and structural correctness we can see the benefits now and this tremendous line of females are holding up exceptionally well.

A special thanks to Nick and Grace for the effort they've put in handling the workload.

Please take the time to view our videos which will be available late November. Feel free to take advantage of our very generous free transport, to many centres.

We think this is a good line of functional, correct, tidy bulls that should breed on for years to come.

From Roz & myself, Nick and Grace, we would like to welcome you all to 'Warravale' and hope you all enjoy your day.

All the best,

John Mercer

About Us & Stud History

Both the Kandanga Valley Charolais and Charbray studs were established in 1988. The first Charolais cattle at Kandanga were purchased by John's parents, Kev & Joan, in 1973 and there has been a Charolais infusion in the Kandanga Valley herd since those early days.

John and Roz purchased Warravale, Kandanga, from John's parents in 1986 and have since owned a Central Queensland property and properties in the Tansey and Gympie district plus agisted properties west of Gympie. Now having sold all of our Tansey grazing country we have secured a very nice property at Moonie on the western downs where most of our Charolais females now run.

We have raised four great children, Wade, Kate, Nick & Brooke and are now proud grandparents to an ever increasing group of fine, good looking offspring.

The first registered Charbray cattle were purchased in 1979 at the Nahrunda Stud dispersal at Gympie. The tremendous growth and easy doing ability of these first Charbrays, with the added benefit of tick resistance, convinced us that Charbray cattle were the most profitable in our environment and probably most other environments as well. Their saleability at fat or store markets is second to none in Queensland.

We now put a heavy emphasis on breeding generation bred (purebred) Charbrays for a much better consistency of progeny to hit the ground.

Early stud Charolais breeders were purchased from numerous high profile studs plus smaller herd dispersals back in the eighties. Since then we have bred heavy muscled, soft fleshed French type cattle with an eye on all the traits required to perform in Queensland conditions. Traits like fertility, milk, growth and muscling rank very highly in our selection criteria. Our herd is run very similar to any commercial herd with poor performers being culled quickly.

Having access to such a large number of stud females has allowed us to be very selective within our herd and we think the bulls offered during this time reflect this as do their very positive EBV figures.

We have recently purchased more country adjoining our Moonie property which has allowed us to retain more breeding females with our stud herds now over 1700 stud cattle.

About The Sale Bulls

CHAROLAIS

In our line-up of 45 Charolais bulls, 31 are polled or scurred with 6 of them being homozygous polled. 11 are red factor with a percentage being polled and red factor.

Once again, they are a quality line up of typical Kandanga Valley bulls – structurally very sound (no hoof trimming), early-to-mid maturing and all have plenty of bone and lots of good beefy carcass attributes. They are bred from an outstanding cow herd that is run under commercial conditions.

The main traits we select for in our herd are – fertility, structural soundness, temperament and low birth weight with above average growth, milk and carcass traits. Polledness is just a bonus.

Some of the sires that have a major influence in this catalogue are Moongool Mr S116 (homozygous polled and red factor). He is a paternal brother of the Australian record priced Charolais bull. Full of French genetics, he is an early maturing, very muscular bull with outstanding fertility. His daughters are soft and feminine with excellent udders and lots of milk. His sons are very beefy, low birth weight boys that are ideal for crossing over any breed of cow. 4 are homozygous polled - all are polled.

Moongool Recall (homozygous polled) is a very sound, free moving bull that is a real meat machine. His sons are the same, all polled (2 homozygous polled) and are high yielding carcass types that strut about displaying excellent soundness.

Kandanga Valley Lionheart (red factor) was also one of the most structurally correct bulls you would ever see walking around a paddock, and he was a big boy. His daughters are excellent, moderate framed cows and his sons have heaps of red meat in all the right places with good strong heads. Some of his last sons are on offer here with 2 being polled and red factor.

CHARBRAY

34 Charbray bulls are on offer plus 1 pure Brahman.

From the Charbray bulls offered, 22 are polled or scurred and are very sound, tidy boys that should stand up to tough conditions and work on for many years.

We pride ourselves on the structural soundness of our cattle, especially focusing on feet, sheaths, testicles and strong masculine heads. Charbrays are expected to work in some harsh environments, and we always have this in mind when selecting sires. Add to this that bred-in Kandanga Valley muscling and you have a line of herd improvers you could buy with your eyes closed. Our Charbray herd has been bred since 1979 and run under strict commercial conditions, with emphasis on fertility, udders and temperament plus constitution in our female herd.

Growth, bone, muscling, structure and masculinity are most important in our bulls as well as tidy sheaths and good feet. Bad feet and prolapsed or damaged sheaths are the most common failures of Bos Indicus bulls, and we have worked hard to eliminate these two things from our herd.

Two homebred sires Kandanga Valley Silverado (polled) and Kandanga Valley Supadoopa (polled), have a large number of sons in this sale. Quite a few are polled and they are very stylish, beefy boys that will stand up well on sale day and are well worth inspection. A maternal brother to Silverado, Ultramatic (polled) will be a future sire in our stud – a photo can be seen in the catalogue. We can't wait to get his calves on the ground.

Our Brahman bull on offer is a very well bred polled grey and we think he is a beauty! We purchased his mother in calf from the Brahrock stud. His paternal brothers have sold very well at the last two Brahman week sales.

All bulls are used to dogs, horses, bikes and buggies.

They are semen motility and morphology tested just two weeks prior to sale.

All vaccinations are listed in the front of the catalogue.

**All bulls are
reared in the ticks
on coastal country.**

 15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.

The auctioneer is not liable in respect of any error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.
 - (b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to remain with the vendor.
 17. In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser, and the auctioneer, while he shall use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions.
 18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.
 - (b) If any vendor brings to the premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right in its absolute discretion, to exclude from the sale venue or dispose of any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.
 19. **DELIVERY.** Except at the discretion of the auctioneer, no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer, pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.
 20. In these Conditions:-
 - (a) References to "auctioneer" shall be taken to mean as the contest so admits, the Selling Agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot.
 - (b) "Purchaser" shall have the meaning ascribed to it in Condition 1.
 - (c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm.
 - (d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.
- IMPORTANT NOTICE** The Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy.
- All persons who attend the sale do so entirely at their risk and the Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.
